FIRST INTERNATIONAL SYMPOSIUM ON DATA-DRIVEN PROCESS
DISCOVERY AND ANALYSIS

SIMPDA 2011

IFIP Working Groups 2.6 and 2.12

<http://sesar.dti.unimi.it/SIMPDA2011/>

ABOUT SIMPDA

Research is gaining new understanding, trying out new solutions and sharing novel results with fellow members of the community. The aim of the IFIP 2.6 - 2.12 First International Symposium on Data-Driven Process Discovery and Analysis is to offer the opportunity to merge all these elements in a single event.

The Symposium will feature a number of advanced keynotes illustrating new approaches, shorter presentations on recent research, a competitive PhD seminar and selected research and industrial demonstrations. All this in the nice setting of Campione d'Italia, the Italian enclave surrounded by Swiss territory, on the shores of Lake Lugano.

KEYNOTES
